

Little Beaver State Park

LITTLE BEAVER STATE PARK is well-equipped to provide a memorable outdoor experience. This 562-acre park features a 46-site campground, an 18-acre lake for recreation such as fishing and boating. Miles of trails challenge hikers, while picnic areas are perfect for family get-togethers or reunions.

CAMPGROUND

The 46-site campground opened in July 2011. Thirty sites have electric and water and the other 16 sites offer water only. A bathhouse with laundry facilities is on-site. The campground features a central dump station and check-in/campstore. Sites have picnic tables and grills. There are both reservable and first-come, first-served sites available.

Campsite reservation information, reservation application, and camping rates are posted on the park website. As the campground continues to develop the Internet is the best way to provide the most current information possible.
