

# Olli - Planes

Morgantown Municipal Airport (MGW) currently offers daily flights to Baltimore-Washington International (BWI) in Maryland and Pittsburgh International Airport in Pennsylvania accessing nearly 1,000 connecting flights to domestic and international destinations. Flights are operated by Southern Airways.

The North Central West Virginia Airport (CKB) is a public airport owned and operated by the Benedum Airport Authority. Located in Bridgeport, West Virginia the airport proudly serves the communities of Clarksburg, Fairmont, Morgantown, Weston, and the surrounding region. The airport is currently served by two commercial airlines; **Allegiant and United Express**. **Allegiant offers less than daily service to Orlando/Sanford, FL and Myrtle Beach, SC while United Express offers global connectivity through their hubs of Chicago O’Hare and Washington Dulles.** It encompasses approximately 665 acres and is home to the longest commercial service runway in West Virginia at 7,800 feet.

**The Mid-Atlantic Aerospace Complex (MAAC)** markets and promotes the capabilities in aviation and aerospace of the North Central West Virginia Airport along with its component members to government, industrial clients and prospects throughout the world. The MAAC's complement of aerospace industry services plays a major role in the region's economic development and **provides first-rate maintenance, overhaul, manufacturing, and training services for the aerospace industry. Today, the complex employs more than 1,300 people in aviation-related jobs and has an economic impact of over \$1 billion.**

### **Members of the MAAC include:**

#### **Aurora**

Aurora Flight Sciences is a leader in the development and manufacturing of advanced unmanned systems and aerospace vehicles. The West Virginia facility is the center of Aurora's composite manufacturing work for military aircraft, with the RQ-4 Global Hawk/Triton and the CH-53K King Stallion providing the foundation. In addition, the facility is also the production base for numerous composite airframe parts of the Bell 525 helicopter. First established in 1994, Aurora's WV manufacturing facilities have grown over the years to a total 125,000 sq. feet between three buildings.

#### **Bombardier**

high quality, full-service aircraft maintenance, modification and back shop support at West Virginia Air Center. West Virginia Air Center offers a wealth of maintenance expertise, focused exclusively on regional turboprop and jet aircraft.

#### **EASW**

EASW provides AOG, scheduled and unscheduled services in the form of airframe, avionics, NDT and engine maintenance. Operating out of a new, full service 16,900 square foot hangar,

#### **Fixed Wing Army National Guard**

The Mission of the Fixed Wing ARNG Aviation Training Site is to conduct individual aircrew training in modernized fixed wing aircraft operated by the Army National Guard

#### **HQ Aero**

HQ Aero specializes in hiring all categories of aircraft technicians to provide manpower to service centers, repair stations, and aircraft manufacturers providing highly skilled, motivated and dedicated aviation technicians to assist you with your manpower needs.

#### **KCI Aviation**

KCI Aviation is an aircraft Maintenance Repair and Overhaul (MRO) facility KCI specializes in business aircraft engine and airframe scheduled and unscheduled maintenance. KCI services a variety of private and corporate

jet aircraft including but not limited to Hawker/Beechcraft, Citation Series, Gulfstream G200, Bombardier Challenger and Lear 60. KCI Aviation is one of three worldwide Pratt & Whitney Leaseco Centers of Excellence. As a specialist in P&W engines and P&W powered aircraft, KCI is a “go to” expert for engine changes, maintenance, inspection, SB incorporation and Diagnostics

### **Lockheed Martin**

Lockheed Martin began operations at the site in 1962. From the first day, the plant’s primary workload has been building subassemblies for Lockheed Martin’s venerable workhorse – the C-130 Hercules.

The plant’s employees produce approximately 7% of each C-130 aircraft. The assemblies include a major portion of the forward fuselage, the cargo ramp, leading edges of the wings, major wing components, and the wheel well fairings into which the main landing gears retract during flight.

### **Pratt & Whitney Engine Services**

Pratt & Whitney Engine Services in Bridgeport, WV has supported the needs of P&WC engine operators for over 35 years. In recognition of PWES’ quality of service it has been designated, by Pratt & Whitney Canada as the "Center of Excellence" for corporate turboprop and turboprop engines. On-wing inspections to engine removals are daily services performed with easy access to the Harrison Marion Regional Airport runway.

### **RCBI**

RCBI encourages manufacturers to adopt the most modern manufacturing strategies, technologies and techniques with the goal of transforming the region’s economy into a powerful, just-in-time, global player.

Established in 1990 in Huntington, West Virginia, RCBI today continues to operate its original Manufacturing Technology Center and has opened three additional ones in Charleston, Bridgeport and Rocket Center. Each of these high-tech centers features specialized technologies, unique structures for education and training, manufacturing networking opportunities and quality documentation and certification, all tailored to serve industry with but not limited to its geographic locale.

### **RCB NAEC**

The Robert C. Byrd National Aerospace Education Center, a component of the Fairmont State University and Pierpont Community and Technical College, offers associate and bachelor degree programs in aviation technology. The Center also offers cutting-edge aerospace industry training. Specialized courses have been developed in areas such as, aircraft sheet metal construction and repair, blueprint reading and interpretation, aviation safety, transport category aircraft familiarization, aerospace company orientation, and aviation management.

**ViaAir is servicing the Mid-Ohio Valley Regional Airport with service to Charlotte, N.C. Orlando, FL and St. Augustine FL. Gateway to the U.S.A. and beyond!**

---

**Huntington Tri-State Airport** handles commercial airline, air cargo, military, and general aviation traffic. HTS has two major airlines serving five non-stop destinations, including: Charlotte, Orlando, St. Petersburg/Clearwater, and Myrtle Beach.
